

Company

Our Company was established by László Bényi and Sándor Tóth in 1994 under the name T & A Partnership. In 1997 the Company changed to Pannon Ventil Ltd. with the aim of becoming a dominant wholesaler in the domestic fitting trade.

Over the last few years our Company has expanded its activities dynamic both in Hungary and abroad.

We carry a large range of stock to meet all our customers' demands so as to supply them with the most favourable and complete range of products.

We maintain relations with Hungarian and foreign manufacturers as to satisfy buyers within the shortest time.

Our team now consists of 33 people whose knowledge and long experience contributes to the growth of the Company.

Our trucks and salesmen deliver the articles daily to different regions of the country which helps to fulfil our customers' requirements.

Our Company has established and applies a Quality System for the field of trade in spares and fittings for boiler houses and installations according to the requirements of MSZ EN ISO 9001:2001 which has been certified by Certification Office of Management Systems of ÉMI-TÜV Bayern Ltd. In August 2002.
